Detection is also possible in houses, company buildings, offices, mobilhomes, yachts, holiday homes etc.

VEHICLE CHECK

1. FAST CHECK

This is only a fast signal check of the complete car to detect all devices who transmit a signal such as GPS locators, tracking devices etc.

2. COMPLETE CHECK

The vehicle is checked completely for GPS tracking devices, logging systems who work offline, listening devices, digital recorders, cams etc. This check takes 6 to 8 hours depending on the type of the vehicle. The car is picked up the day before the sweeping and returned in 24 hrs. The customer receives pictures from all searched areas to see what was checked.

We advise always the complete check to be sure the vehicle is clean.

Pricing on simple demand depending on location and time. Please send your request via email/whatsapp or phone, contact info see header.

Privacy is of paramount important for our customers and we respect this for 100%.

EXPECT THE UNEXPECTED
