MC ARMOR
Miguel Caballero

At MC Armor Miguel Caballero we are specialists in ballistic protection solutions, and so far we have sold more than **1,500,000** vests for personal protection.

Due to this great experience, our mission became: PROTECT LIFE.

Over the years, our company has developed products according to the requirements of our clients based on our pillars: Applied design, technology, innovation and certified quality in order to guarantee the satisfaction of all our clients and exceed all your expectations.

CERTIFICATIONS

ISO 9001

We have the certification of this international standard, which promotes the adoption of a process-based approach, where the effectiveness of the quality management system is developed, implemented and improved, to increase customer satisfaction by meeting their requirements.

ISO 14001

We have the ISO 14001 environmental certification that allows us to establish commitments and activities for the prevention of pollution through programs that guarantee appropriate and economically viable results.

NIJ 01.0106 Ballistic Resistant

MC ARMOR has 12 certifications granted by the NIJ (National Institute of Justice). This agency of the United States Department of Justice developed the verification system for ballistic protection products that ensures that the user has the highest level of protection possible and that it is the strictest reference in the control and certification of quality standards of personal protection products.

BA 9000

The BA 9000 certification is an extension of ISO 9001, a quality management standard. Manufacturers who obtain the BA 9000 certification must meet additional requirements which are very specific to the manufacturing and testing of ballistic garments. For BA 9000 certified manufacturers, the testing frequency can be cut in half.

ISO 45001

Icontec has issued an IONet recognized certificate that Miguel Caballero has implemented and maintains a OCCUPATIONAL HEALTH AND SAFETY MANAGEMENT SYSTEM for design, production, commercialization and maintenance of garments and products of security and/or personal protection of textile and/or ballistic resistance.
